

# New hospital in the city

Chennai Mayor M Subramanian will inaugurate the Aakash Multi Speciality Hospital, Vadapalani, on July 30 at 9 am

Aakash MSH is one of its kind in India with special departments that meet the needs of physical, mental and relationship problems

**A**akash Multi Speciality Hospital is the milestone in the growth of Aakash Fertility Centre, which caters to all the needs of infertile couples under one roof. Aakash Multi Speciality Hospital is not just like any other clinic for diabetes, ENT, Ortho or Neuro problems, it is a special one. Aakash MSH is one of its kind in India with special departments that meet the needs of physical, mental and relationship problems. The Special Departments are: 1.Immunological Infertility and Blood disorders treatment centre 2.Indian Institute of Pain Management 3.Happiness Clinic 4.High Risk Pregnancy Clinic 5.Well women Clinic 6.Menopause Clinic 7.Interventional Sonography clinic 8.Sex - Master Health Check up

**Immunological Infertility and Blood disorders treatment centre:** This is the first centre of its kind in India with latest highly advanced treatment modalities specially to treat the immunologically infertile couples by Dr Maheswari, an Immunohaematologist. The cause of immunological infertility can be due to 1.Anitispem antibodies produced by one of the male or female partner. These antibodies lead to the destruction of sperms before they are capable of fertilising an Ovum. 2.Presence of antiphospholipid antibody among pregnant females leads to recurrent early months abortions. 3.Recurrent clotting factors deficiency manifested as clinical 'Thrombophilia', is also one of the cause for immunological infertility.

**Indian Institute of Pain Management:** Pain is the oldest medical problem of the universe affecting the mankind. In fact 80% of the patient visiting hospital or doctors have pain as their major complaint. Pain is the multi-dimensional problem and its severity depends on psychological, emotional, cultural and physiological inputs. The root cause of the pain is diagnosed and treated. For the first time in Tamilnadu,

Radio Frequency Ablation machine will be used here for the treatment of pain.

**Happiness Clinic:** The clinic teaches scientific and proven methods of happy living. A centre to make a man live happily in spite of immense pressure he undergoes in today's world that increases suicidal rates and low self esteem behaviors. To overcome these, a scientific approach to the roots of these problems is the need of the hour. This is done in the Happiness Clinic by Dr Kamaraj and his team.

**High Risk Pregnancy Clinic:** All the problems that a woman may face during her pregnancy period till the delivery of a healthy newborn baby is taken care in the high risk pregnancy clinic under the leadership of Dr.Jeyarani. Pregnant women with repeated abortions, preterm labour, high BP, Diabetes, cervical incompetence are treated here.

**Well Women Clinic:** Menstrual problems, cervical cancer, breast cancer etc., are diagnosed earlier here by latest equipment and treated by chief Dr KRukamani.

**Menopause Clinic:** For the first time in South India, a clinic specially for menopausal problems. The menopausal symptoms that lead to mental, physical health problems among the aged women are treated here under the guidance of Dr Mani Shanthini.

**Interventional Sonography Clinic:** Under the expert guidance of Dr Sathya and her team, early defects in the baby are identified in the uterus itself, before it becomes a major problem and they are treated. This leads to the delivery of a healthy baby which adds joy to the mother and the treating doctor.

**SEX - Master Health Check-up:** This is a new innovative check-up needed for this hour in our society which is riddled with many sexual problems and diseases. Here all the sexual problems are identified by specialist in one place and then they are treated.

## FOR GLOWING HAIR

herbal hair care powder is used to clean the scalp. This not only helps to get rid of dandruff but also helps to save the natural oil of the scalp. VLCC International Hair treatments are an innovative concept in professional treatments based on the principles of Thalassotherapy & Aromatherapy. It uses resources of the sea (Oligo-elements & Algae) and specific Aromacological essences to solve all the hair & scalp anomalies. These are exclusive yet simple services based on a unique method. These programmes use the VLCC method to bring maximum benefits and wellness for the hair.

**Clear Defense Treatment:** This hair treatment provides defense against dandruff by giving ozone treatment to the scalp and using non-oily hair tonics. It is a wonder treatment for all the hair types

**Keratin Treatment:** In this treatment hair oils are applied to the scalp and the roots, thus making them strong by absorbing natural keratin. As a result, hair fall reduces to the minimum. **Hydra Hair Treatment:** It helps to get rid of dryness and frizzy looks and makes hair manageable and lustrous.

**VLCC HEALTH CARE LIMITED**  
79 CP Ramaswamy Road  
Alwarpet, Chennai - 600018  
PH-044 24671918  
Q-89, 4th Main Road,  
Anna Nagar, Chennai - 600040.

**H**air fall is one of the most common problems related to hair. At VLCC, we have a multi pronged treatment for falling hair. It involves the application of special oils, massage and steam along with stimulation of strategic pressure points. The specially prepared oils penetrate the skin with deep kneading and compressing movements over the neck, shoulder & scalp areas. In addition, experts ensure that the appropriate pressure points are activated. This treatment with Ayurvedic oils, massage & steam helps the penetration of herbs and is effective and long-lasting.

**Dandruff**  
Dandruff is merely an accumulation of dead scalp cells. A systematic procedure for treating the scalp is followed. Special oils are used to treat the scalp along with massage and steam. Different oils are used according to the constitution of the person to get relief from the dead scalp cells. A specially prepared

Special oils are used to treat the scalp along with massage and steam

## Relive your past life

**I**t was a long wait to meet Dr C J Jeyachander just then a 45-year-old person Shankara came out of the therapist room and was elated with what had happened to him with the therapist. He had been suffering from body ache for past one year and had undergone all kinds of medical treatment only to find nothing was wrong with his body. It was my turn and as I entered his cabin, he received all my queries answered and made me to gaze at him. The person who had just left his room had been taken to his past where he was stabbed by his own accomplices. During the therapy he removed all the knives pierced in his body and his wound got healed instantly.

His pain, which he had carried for years had vanished within no time, when he came back to real life. He says, "This is true. You too can go and relive your past life with the past life regression therapy."

According to this concept, if one can remember his yesterday, previous day, past

year and backwards till his childhood days he can also remember the period of his birth right into the womb.

Likely, he too has the memory of his past, which he can bring forth to his knowledge during past life regression. This therapy is a scientific tool, through which a person can be relieved of any pain, traumas or failures backing him all the way in this life for the success to reach him. He also adds that even chronic diseases like asthma can also be relieved with the help of past life regression therapy. This therapy is based on the influence one carries for lives and gets to live the same even in the present life. When this karmic (negative) imprints are removed and healed, the person suffering gets to live a happy and normal life. He adds on to say that a person after getting to know his past, gets healed and also learns the purpose of life or birth in his lifetime. He gets to lead a positive and fruitful life thereafter. Join me to learn this concept of past life regression therapy with DrC J Jeyachander who is conducting this phenomena in Chennai on August 7 and 8.
